Keep track of the weather for 5 days using the attached chart. You do not have to do 5 days in a row, however, please make sure to include the dates and the names of the days of the week. After you have completed the chart, please answer the questions using the information that you have collected.

PARENTS: Please help your child collect the weather data needed for this assignment, either by watching the news or looking it up on-line. Be sure to talk with your child as you work together on this project. Also, use as many of your child's vocabulary words as you can in daily conversation. Finally, when your child says they are finished with his/her answers, encourage him/her to make them even better.

* Feel free to help your child with this activity. The final product should be your child's work, but I encourage your involvement throughout the process. It is fine to jump in and help them here and there. They will learn so much from you! So, work together and HAVE FUN!

If you have any questions, please let me know.
