NECCO
School-Based Mental Health Services

We serve children in PreK–12, recognizing that each student is unique. Our programs are built to support their challenges while encouraging their individual strengths.

Our school-based mental health providers offer on-site counseling and support during the school day, helping students manage emotions, build coping skills, and stay engaged in learning. When school is out, we stay involved, providing year-round support at home, in the community, and beyond so kids can thrive.

Impact on Student Well-being and Academic Success

Both the School-Based Therapist and the Case Manager play vital roles in creating a supportive and nurturing school environment. By addressing mental health needs all year long, including school breaks, and connecting students with essential resources, these professionals contribute to:

- Improved student mental and emotional well-being
- Reduced behavioral problems
- Increased attendance rates
- Enhanced academic performance
- Stronger family engagement
- A more positive and inclusive school climate

.

Skills Required For All Providers:

- Knowledge of community resources
- Ethical principles and practices
- Advocacy and problem-solving skills
- Communication and interpersonal skills
- Organizational and time-management skills
- Cultural sensitivity and awareness

Connection and Collaboration

The school-based Therapist and Case Manager are integral members of the school support team. Their collaboration ensures that students receive comprehensive care, addressing both their mental health needs and the social determinants of health that impact their overall well-being and academic success. By working together, they help create a school environment where all students can thrive.

NECCO
Community Behavioral Health

Necco school-based providers can come to your child's school or home to provide discreet counseling in a familiar environment. Contact **cbh.necco.org** to schedule a consultation today.
