

Western Brown
LOCAL SCHOOLS

From the Desk of the Superintendent.

Our mission statement here at Western Brown Local Schools is simple “Learn with Passion, Act with Courage, Change the World.” These are the expectations and the hopes that we have for our students. This is not only the mission for our students while they attend Western Brown Local Schools, but we also hope this mission follows them into the workforce and throughout life.

As we come out of the pandemic and celebrate things getting back to a new normal, I am excited to share a few of the initiatives in progress across the District . . .

We have implemented new digital friendly Math and Reading Curriculums.

A program has been developed to focus on social and emotional learning to help our students better navigate the challenges life brings

Special staff training in identifying Dyslexia

Renewed emphasis on identifying and serving our gifted students

A project to revamp the High School Library space into a Learning Commons that is more functional and inviting

Plans are also in progress for updated HVAC systems and new playground equipment.

Our FFA, Athletics and Fine Arts Departments continue to grow, improve, and impress.

We believe that all teachers, students and administrators should strive to meet high expectations, treat one another with respect and dignity, create a positive and safe environment for learning, recognize the strengths and talents of each person, and foster the value of being a lifetime learner.

We are excited for the future!
